

PRESS RELEASE

Dangerous Goods Online Training Ltd partner with Cargosafe Oy to offer online dangerous goods training in Finland and Estonia

Release date- 15th June 2020

UK based Dangerous Goods Online Training Ltd have appointed Cargosafe Oy to act as their agent in Finland and Estonia.

Building on their innovative training development as the first UK CAA approved dangerous goods online training provider, Dangerous Goods Online Training Ltd are delighted to be working with Cargosafe Oy.

Cargosafe Oy are the only authorised company in Finland to offer IATA Category 1-6 dangerous goods training courses online.

This agreement coincides with the launch of our new training portfolio covering all IATA dangerous goods training categories.

“We are very excited to be working with Cargosafe Oy to extend our services into Finland and Estonia. This is a real team effort and will help to further enhance our reputation as the market leader in CAA approved online dangerous goods training” said Paul Horner, Director Dangerous Goods Online Training.

Notes to Editors:

Dangerous Goods Online Training Ltd was formed in January 2020 and provides the only UKCAA approved online dangerous goods training for shippers, freight forwarders, operator’s acceptance staff. We continue to develop training courses and recently launched our lithium battery courses for shippers including adequate instructions and IATA Category 10 for flight crew members.

Cargosafe Oy was established in January 2017 and provides a variety of products and services in relation to transport of dangerous goods, including training, packing, packaging and hazard marks and labels.
